To Whom it may concern,

Graham has been working with us at Cook Medical for over a year in a one to one coaching capacity for young engineering leaders. To date five of our young leaders have had the opportunity to work with Graham with more planned for next year. Both the positive feedback from all the participants and the noticeable positive changes the participants have made has been of great benefit for both the individuals and our organisation as a whole.

More recently, we have engaged Graham to run workshops (work of Leaders) aimed at equipping the team with tools for more effective leadership and to better manage our diverse multidisciplinary engineering team.

Graham is viewed as part of our team and is accompanying us on our Journey to improved and more effective leadership to continue our success in the Medical devices industry.

Graham brings, knowledge, experience and knowhow and I would highly recommend him to any organisation as a coach both on an individual and group basis.

Samih Nabulsi

Director R&D – Asia Pacific
